SikaColor®-140 SG POWDER INTEGRAL COLORS

BUILDING TRUST

Colors shown on this chart approximate the color of broom finished concrete flatwork made with a medium gray cement and sealed with solvent-based SikaCem®-100 Clear Guard®. If SikaCem®-100 Clear Guard® is not used, the concrete color will not be as vibrant as shown. Concrete should be batched and placed in accordance with Product Data Sheets. Concrete color is altered by many factors, including cement and aggregate color, slump, finishing practices, and curing method. Using the contemplated materials and construction techniques, representative samples should be cast for approval, especially when exact color matching is important. NOTE: When using lower color loadings, such as one bag per two yards, the color of the cement and sand have a more pronounced influence on the final color resulting in a greater chance of color variation.

1 BAG PER 2 YARDS	1 BAG PER 1 YARD	2 BAGS PER 1 YARD	3 BAGS PER 1 YARD
SG01-130 Brown	Earth Brown	Toasted Brown	Chinchilla Brown
SG02-117 Coral	Red Coral	Crimson Coral	Fiery Coral
SG03 Stone	River Stone	Quartz Stone	Cliff Stone
SG04-160 Clay	Arid Clay	Baked Clay	Utah Clay
SG05-677 Bark	Wisteria Bark	Hickory Bark	Mahogany Bark
SG06-447 Buff	Honey Buff	Golden Buff	Mustard Buff

SikaColor®-120 G Granular Integral Concrete Colorant adds color that is weather resistant, UV stable, lightfast, and alkali resistant. It contains no materials that initiate, accelerate, or promote the corrosion of steel, coated metal, plastic, or rubber concrete reinforcements. SikaColor®-120 G Granular Integral Concrete Colorant will not migrate from standing water, and can safely color concrete fountains, pools, water features, or concrete that will be polished and encounter damp or wet environments. All pigments used conform to ASTM Standard C979 (Standard Specification for Pigments for Integrally Colored Concrete).

Plain concrete made with medium gray cement

Cover image: Color depicted in driveway is MasterColor Apple Cider.

** The color chips depicted in this color selector show the approximate color of broom-finished, fully cured decorative concrete flatwork made with a medium gray cement, and a 0.45 to 0.50 water-cement ratio. Decorative concrete cured with Master Builders Solutions' MasterKure® CC 1315 curing compound will be slightly darker in appearance. There are many factors that can impact the finished appearance of in-place decorative concrete. FOR PROFESSIONAL USE ONLY.*
